

Changing Email

Changing Email	Click on the images to zoom
<p>Need to change the email address in your account? Simply click "Change Email" on the navigation menu and follow the instructions.</p> <p>For security reasons, we also require you to confirm the password on your account at the same time to process the change.</p> <p>Additionally, you will receive an email to your new email address which you will need to action to finalise the change.</p>	 A screenshot of the 'Account' page in a dark-themed application. The left sidebar contains a navigation menu with items: Profile, Badges, Change Password, Change Email (highlighted), Untap Settings, Billing, Discord, Patreon, About Untap, Bugs & Feedback, Wiki, and Logout. At the bottom of the sidebar is a red 'Deactivate' button. The main content area is titled 'Change Email Address' and includes a message: 'Your current email is fully validated and ready to go, if you need to change your email use the form below. You will be asked to confirm the change via your new email address.' Below this message are two input fields: 'New Email Address' and 'Password' (with a placeholder 'Untap Account Password').
